Dear Examiner Twyler Marie Lamb

USSN 09/575,120**In the Name of Simon Robert Walmsley****Docket No: PP16US**

In response to the Notice of Abandonment we hereby lodge a petition to **WITHDRAW HOLDING OF ABANDONMENT**.

The Notice of Abandonment states that a reply to the Office Action mailed on July 1, 2003 was not received by the USPTO. We confirm that the reply was faxed in response to the Office Action mailed on July 1, 2003. We therefore petition the commissioner to **WITHDRAW HOLDING OF ABANDONMENT** on this application.

The enclosed Declaration of my Patent Administrator, Leonie Frances News, confirms that a response was faxed to the USPTO on September 25, 2003.

We respectfully request favourable consideration of our petition.

Yours sincerely,

Kia Silverbrook

OFFICE OF PETITIONS

I LEONIE FRANCES NEWS of 393 Darling Street, Balmain, New South Wales, 2041, Australia do solemnly and sincerely declare as follows:

1. I am the Patent Administrator of Silverbrook Research Pty Ltd and have held this position since 1 September 1999.
2. I have responsibility for maintaining files, preparing responses and forwarding the responses to Office Actions for the United States patent applications of Simon Robert Walmsley and Silverbrook Research Pty Ltd, including US Patent Application No. 09/575,120 ("*The Patent Application*").
3. I received a Notice of Abandonment on The Patent Application stating that the reply was not timely filed at the USPTO to Office Action mailed on July 1, 2003.
4. I then checked my file for The Patent Application and now state that the reply was faxed to the USPTO on The Patent Application on September 25, 2003. A copy of the Reply sent to the Office Action and all other accompanying documents are attached, together with the fax transmission sheet and Transmittal Form and marked as Exhibit LFN-1.

5. Examiner Marie Twyler Lamb was emailed on March 4, 2004 in relation to the facsimile number the response was sent to. It appears from Examiner Marie Twyler Lamb's reply that the facsimile number the response was sent to was incorrect. That is, the Office Action of July 1, 2003 referred to facsimile no. 703 746 6036 for regular communications, whereas Examiner Marie Twyler Lamb's email indicated that the correct facsimile no. for regular communications is 703 872 9306. A copy of Page 3 of the Office Action and of Marie Twyler Lamb's email are attached and marked as Exhibit LFN-2.

And I make this solemn declaration aware of the penalties for false declarations under section 11 of the Statutory Declarations Act 1959 (Cwth of Australia).

REMARKS/ARGUMENTS

1. The Applicant notes that the Examiner has accepted claims 9 and 10 and has indicated that claims 4 and 6-8 would be acceptable if written in independent form.

2. In paragraph 2 of the Office Action the Examiner has rejected claims 1-3 and 5 as lacking novelty in light of Housel (5,633,990). In reply, the Applicant notes that Housel is concerned with color mapping, that is, getting the best color on a given dot position by using the colors red, green, and blue to print an image that is input in Cyan, Magenta, Yellow and Black. The primary focus of Housel, best illustrated in Figure 6, is determining, for each input pixel, which output colour to print. The way Housel works is that they trade spatial resolution for color depth. That is, they use multiple dot positions (referred to as an n-tuple e.g. two dot positions) to produce an averaging effect for an overall color.

In contrast, the claimed invention is concerned with actually changing the dither cell itself, and is independent of what colors are being referenced. The dither cell is modified to achieve an improvement in that the decoding circuitry required for certain types of printers can be reduced.

In this way, Housel describes a technology that is fundamentally different from the claimed invention.

The Examiner relies on col. 4, line 19 to col. 6, line 23 to support her argument that Housel anticipates claim 1. However, that section contains no disclosure of the step of "*mapping said dither cell to a staggered dither cell*" as claimed. The Applicant submits for this reason that Housel does not anticipate claim 1. Furthermore, since claims 2 and 3 depend from unanticipated claim 1, the Applicant submits that claims 2 and 3 are also novel.

The Applicant also submits that col. 4, line 19 to col. 6, line 23 contains no disclosure of a dither cell in which "*lines of said values corresponding to odd pixels of said image in said cell [are] staggered relative to lines of said values corresponding to even pixels of said image*" as claimed in claim 5.

In anticipation of the Examiner suggesting that Figure 4 discloses this feature, the Applicant notes that the odd and even squares pictured in Figure 4 correspond to the odd and even pixels of the input image. Column 4, lines 22 to 24 state "*...consider the whole page 36 as being divided up into 2-tuples having Even pixels 38 and Odd pixels 40, as illustrated in FIG. 4.*" It is clear from this disclosure that Figure 4 of Housel is not an illustration of staggered lines in a dither cell but merely the arrangement of odd and even pixels in an input image to be printed. The Applicant submits for this reason that Housel does not anticipate claim 5.

3. The Applicant submits that claims 1 to 3 and 5 are not anticipated by Housel and the Examiner is requested to reconsider and withdraw this novelty objection.

It is respectfully submitted that all of the Examiner's objections have been successfully traversed. Accordingly, it is submitted that the application is now in condition for allowance. Reconsideration and allowance of the application is courteously solicited.

The correct fax number for regular communication is 703/872-9306.
None of the responses referenced in your email are showing to have been received by the PTO.
A call was placed to you to find out the status of the files and I received no response,
so the files were abandoned.

Dear Examiner Marie Twyler Lamb,

I refer to the above applications which have all been abandoned.

1. PEC02US (USSN 09/575,109) was abandoned for our failure to send a response to the Office Action dated July 7, 2003.
2. PP16US (USSN 09/575,120) was abandoned for our failure to send a response to the Office Action dated July 1, 2003.
3. PEC03US (USSN 09/575,110) was abandoned for our failure to send a response to the Office Action dated July 7, 2003.

However, for each of these applications we sent a facsimile responding to each Office Action on the following dates:

1. PEC02US: Oct. 7, 2003
2. PP16US: Sept. 25, 2003
3. PEC03US: Oct. 7, 2003

All responses were sent to this facsimile number : 703 746 6036 and got through with a positive Facsimile report (which will be sent to you with our requests to withdraw the Abandonments).

However, we are concerned that this facsimile number may be incorrect or may not be functioning the way it should and we are unsure as to which facsimile number our requests to withdraw the abandonments should be sent/faxed to.

Please kindly let us know what the correct facsimile number ought to be.

Many thanks

Yours sincerely,

Pascale Hair
